WELCOME SPONSORS & EXHIBITORS

The Accelerator Reliability Workshop is a bi-yearly technical workshop for the accelerator community. Physicists, engineers, and technical personnel interested in all facets of accelerator technology will be present to discuss and review the latest issues, trends and challenges in the field with a specific focus on reliability.

The ARW provides a venue for the accelerator communities to meet and share their experiences on running reliable facilities. The workshop fulfills a need to have better information exchange on technical issues and equipment reliability. It facilitates personnel to share their problems and solutions with their peers from other facilities.

The workshop is also of interest to vendors involved in any aspects of the accelerators technology. It offers a venue to make contacts and promote their products. Some of the fields of technology involved in accelerators are Ion Sources, Vacuum, Cryogenics, Radio Frequency, Magnets, Superconductivity, Power Supplies, Beam Diagnostics, Beam Dynamics, and Controls.

Where: Vancouver Marriott Pinnacle Hotel; Vancouver, BC, Canada

When: January 26 to January 30, 2009
